1 Introduction

This document contains the test approach regarding the T2 Mandatory testing and a detailed description of test cases for the T2 participants.

1.1 Approach

The set of test cases in this document are mandatory for directly connected T2 Participants¹. T2 Participants constitutes Payment Banks and Ancillary Systems.

T2 Participants should progress logically through the tests, commencing with the CRDM related activities, then progressing to the CLM and RTGS related activities. All the evidence must be gathered and attached in the certification testing template. The recommendation is that CRDM and reference data related tests are carried out during the Pre-Migration testing if possible.

Please note that these tests are not an exhaustive set of test cases for T2 Participants. If relevant, the National Central bank may provide to the participants a set of additional authorisation test cases to be carried out. The tests must be carried out in the T2 Pre-production Test environment (known informally as UTEST). The test cases have been selected in order to evaluate the participants' capability to perform the basic functions of the system. It is the responsibility of each T2 participant to ensure that all functionalities related to their business will be tested. The tests can be performed in two-eyes mode, but evidence provided including four-eyes mode screenshots will be accepted. In some cases, cooperation is required between participants to prove a test case e.g. between Ancillary system and Payment bank.

The T2 User Testing Terms of Reference indicates the period from 1 December 2021 to 27 January 2023 as dedicated to mandatory testing. During the User Testing period the participants will be asked to report on their progress at monthly intervals. The mandatory tests must be completed and verified before the end of T2 User Testing in order for the participant to progress to T2 production.

The Participants will submit the evidence (screenshots and files) to their National Service Desk, which will confirm the success of the testing after the successful evaluation of the provided evidence.

¹ Only the co-manager is responsible for executing mandatory test cases. Co-managed participants are exempt from the mandatory test cases and fall under the umbrella of the co-manager. This also means that if the co-manager does not supply evidence of the completed test cases, both co-manager and co-managed participant will be reported as not having completed the test cases. The co-manager only has to provide one set of mandatory test cases from one party (this can be its own party). However, if a test case applies to the co-managed participant and not the co-managers party itself, the co-manager must provide evidence of the mandatory test case that would be applicable to the co-managed participant (e.g. the co-manager does not use a specific message for its own party but it is used for the co-managed party. In this case the co-manager must provide evidence for completion of such test case).

1.2 Co-managers and co-managees

The MTRSG has agreed that co-managers will be responsible for the performance of mandatory test cases on behalf of their co-managees.

If the co-manager co-manages one or more co-managees (both co-manager and all co-managees, under the responsibility of the same central bank) then the submission of test case evidence to the co-manager NCB related to just one of these co-managees will be sufficient. In any case, the co-managee will report to its NCB (if requested) about its readiness in the context of the testing phase (User testing status, completion percentage of mandatory test cases, expected completion date, etc.)

If a co-managee is co-managed by a co-manager in a foreign country then this co-managee must request the evidence from his co-manager and submit it to his own NCB (if requested by its NCB). It is the responsibility of the co-manager for a co-managee in a foreign country to carry out any locally mandated tests (e.g. authorisation tests) by the NCB of the co-managee.

The NCB of a co-manager may also share the evidence submitted in Darwin to allow other NCBs to access it should they wish.

1.3 Test case template methodology

The table below describes the elements included in the test case template.

Test Case ID	T2_TC_(RTGS/CLM), AH/AS followed by an ID number for identification purposes.
Test case name	Descriptive name of the test case
Relevant for (actor)	(CLM/RTGS) Account Holder / Ancillary System (AS)
Domain	Indicates the TARGET Services domain e.g. CRDM / CLM / RTGS in which the test case is carried out.
Sub Domain	Possible values include: CRDM_GUI Liquidity transfer order (LTO), Query (QUER), Minimum Reserve (MR) Maintain Credit Line (MCL) Credit Transfer Order (CTO) Ancillary System Procedures x (ASP A/B/C/D/E)

Input mode	U2A or A2A (the user chooses one of the two input modes corresponding to the input mode that will be used in Production. U2A (the test case can only be carried out in U2A) A2A (the test case can only be carried out in A2A)
Mandatory	Yes or Conditional (COND - any exempt or specific conditions to be considered)
Detailed Description	Short description followed by the required step to perform the test cases first in U2A then in A2A (where applicable)
Preconditions/Details	Preconditions required to carry out the test case
Expected results	The expected and required outcome of the test case in U2A and A2A (if applicable)
Test evidence	Description of the required test evidence for the U2A and A2A (if applicable) execution.
Relevant Documentation	References to the User Detailed Functional Specifications (UDFS), User Handbook (UHB) and/or the Pre-Migration Schedule (PMS).
Related privileges	Required privileges to carry out the test case.

2 Test cases

2.1 Test case overview

CLM and RTGS Account Holders

Test ID	Domain	Input Mode	Test Case name	Mandatory
T2_TC_AH_ID1	CRDM	U2A	Create Message Subscription Rule Set Create Message Subscription Rule	COND
T2_TC_AH_ID2	CRDM	U2A	Create Certificate DN	Yes

2.1 CLM and RTGS Account Holders

T2_TC_AH_ID1 - Create Message Subscription Rule

Test Case ID	T2_TC_AH_ID1
Test case name	Create Message Subscription Rule Set Create Message Subscription Rule
Relevant for	CLM and RTGS Account Holders
Domain	CRDM
Sub Domain	CRDM_GUI
Input mode	U2A
Mandatory	Conditional Not applicable to U2A only parties
Detailed Description	<p>The test case describes how to set up a rule set and adding a rule to the set.</p> <ol style="list-style-type: none"> 1. Select Common → Messages and Reports → Message Subscription Rule Set → click on New button 2. Fill out the required form data and click on submit button in order to create a Rule Set. 3. When the set is created, the rules can be added to the rule set in order to subscribe the party to some messages (e.g. camt.054 and pacs.002). At least one rule has to be added to the set.
Preconditions/Details	<p>The user has the required privileges to use the GUI screen.</p> <p>The rule set must be created before rules can be added</p>

Expected results	The rule set is successfully created and at least one rule has been added to the set
Test evidence	CRDM GUI Screenshot
Relevant Documentation	<p>CRDM UDFS:</p> <p>1.2.3. Related privileges	<p>Create Message Subscription Rule Set</p> <p>Update Message Subscription Rule Set</p> <p>Create Message Subscription Rule</p> <p>Update Message Subscription Rule</p>

T2_TC_AH_ID2 - Create Certificate DN

Test Case ID	T2_TC_AH_ID2
Test case name	Create Certificate DN
Relevant for	CLM and RTGS Account Holders and Ancillary Systems
Domain	CRDM
Sub Domain	CRDM_GUI
Input mode	U2A
Mandatory	Yes
Detailed Description	<p>This test case describes how to create a new user certificate distinguished name.</p> <ol style="list-style-type: none"> 1. Select Common → Access Rights Management → Certificate Distinguished Names → New 2. Enter the mandatory information in the certificate distinguished name field.

Mandatory Test Cases

	<ol style="list-style-type: none"> 3. Click on the submit button 4. The new certificate distinguished name has been created
Preconditions/Details	The user has the required privileges to use the GUI screen.
Expected results	The certificate DN is successfully created
Test evidence	Screenshot
Relevant Documentation	<p>UDFS</p> <p>1.3.4 Access rights management</p> <p>UHB</p> <p>3.3.2.2 Create a New Certificate Distinguished Name</p> <p>Pre-Migration Schedule</p> <p>T2.PM.AH.ARC.CU</p>
Related privileges	<p>Create Certificate Distinguish Name</p> <p>User Certificate DN Link Query</p>

T2_TC_AH_ID3 - Create User Certificate DN Link

Test Case ID	T2_TC_AH_ID3
Test case name	Create User Certificate DN Link
Relevant for	CLM and RTGS Account Holders
Domain	CRDM
Sub Domain	CRDM_GUI
Input mode	U2A
Mandatory	Yes
Detailed Description	<p>This test case describes how to create a new user certificate DN link.</p> <ol style="list-style-type: none"> 1. Select Common → Access Rights Management → User Certificate Distinguished Name Links. In this screen, the user selects the "New" option; 2. Enter the mandatory fields and click the "Submit" button. 3. A message appears in the top of the screen indicating that the task has been completed successfully.
Preconditions/Details	<p>The user has the required privileges to use the GUI screen.</p> <p>A User and a Certificate Distinguished Name have to be created before the link can be configured.</p>

Expected results	The link is successfully created
Test evidence	Screenshot

Related privileges	Create User Certificate Distinguish Name Link User Certificate DN Link Query

2.2 CLM Account Holders

T2_TC_CLM_AH_ID1 - CLM liquidity transfer order to RTGS DCA

Test Case ID	T2_TC_CLM_AH_ID1
Test case name	CLM liquidity transfer order to RTGS DCA
Relevant for	CLM Account Holders
Domain	CLM
Sub Domain	LTO
Input mode	U2A or A2A
Mandatory	Conditional The following are exempt for this test case -institutions having an MCA for cash withdrawal only; -Institutions having an MCA to satisfy minimum reserve only. -institutions leaving the management of their account and liquidity to others (co-management).
Detailed Description	This test case describes the steps required to carry out a CLM liquidity transfer to an RTGS DCA. U2A <ol style="list-style-type: none"> 1. Select Liquidity → Liquidity Transfer – New Screen 2. An authorised user can enter a liquidity transfer order to transfer liquidity from an MCA to a RTGS DCA through the New Liquidity Transfer Order page in GUI application.

	<p>3. The user fills in all fields correctly and clicks on 'Submit' button.</p> <p>4. The user is requested to confirm the data and a success message appears.</p> <p>5. The liquidity transfer order is created and settled. There is also a 'Reset' button available to cancel the modification.</p> <p>A2A</p> <p>1. The participant sends a camt.050 (to transfer liquidity from an MCA to a RTGS DCA) which passes technical and business validation.</p>
Preconditions/Details	<p>The debtor Party needs to be a CLM account holder and needs to be authorised to debit the MCA.</p> <p>The user has access to the New Liquidity Transfer order page (U2A only)</p> <p>Message subscription exists for the credit notification (A2A only)</p> <p>Sufficient liquidity is held (unreserved) to effect settlement</p>
Expected results	<p>Camt. 054 received if configured (applicable for U2A and A2A)</p> <p>U2A</p> <p>The LT is visible in the Query Cash Transfers/ List Cash Transfers/ Details of cash transfers</p> <p>A2A</p> <p>The processing continues with 'Submit to settlement'.</p> <p>The liquidity transfer order is correctly settled and the submitting actor receives a camt.025 with the code value SSTS (SettlementStatus).</p> <p>To notify the settlement, the creditor receives a camt.054.001.08 BankToCustomerDebitCreditNotification with local instrument (LIIE)</p>
Test evidence	<p>U2A:</p> <p>A Liquidity Transfer order with status "settled" can be visible from one of the following screen: Query Cash Transfers/ List Cash Transfers/ Details of cash transfers. Therefore, a screenshot of the liquidity transfer with status "settled" could be requested from "Query Cash Transfers" screen/ "List Cash Transfers" screen or "Details of cash transfers" screen</p> <p>A2A:</p> <p>Copy of the camt.025 (A2A)</p>

T2_TC_CLM_AH_ID2 - CLM liquidity transfer order between two MCAs

Test Case ID	T2_TC_CLM_AH_ID2
Test case name	CLM liquidity transfer order between two MCAs
Relevant for	CLM Account Holders
Domain	CLM
Sub Domain	LTO
Input mode	U2A or A2A
Mandatory	Conditional Requires a liquidity transfer group.
Detailed Description	<p>This test case describes the steps required to carry out a liquidity transfer order from one MCA to another MCA.</p> <p>U2A</p> <ol style="list-style-type: none"> 1. Select Liquidity → Liquidity Transfer – New Screen 2. Enter a liquidity transfer order to another MCA 3. Click on 'Submit' button. 4. The user is requested to confirm the data and a success message appears. 5. The liquidity transfer order is created. There is also a 'Reset' button available to cancel the modification. <p>A2A</p> <ol style="list-style-type: none"> 1. The participant sends a camt.050 (to transfer liquidity from an MCA to a MCA which passes technical and business validation.

Preconditions/Details	<p>The debtor Party needs to be a CLM account holder and needs to be authorised to debit the MCA.</p> <p>Message subscription exists for the camt.054 credit notification (optional)</p> <p>MCAs belong to the same Liquidity Transfer Group</p>
Expected results	<p>U2A:</p> <p>The LT has settled (with cash transfer status “settled” and is visible in the Query Cash Transfers/ List Cash Transfers/ Details of cash transfers. The debited and credited MCA received a Camt.054 (if configured in CRDM).</p> <p>A2A:</p> <p>The liquidity order transfer is not earmarked due to blocking and the processing continues with ‘Submit to settlement’.</p> <p>The liquidity transfer is correctly settled and the sender receives a camt.025 with the code value SSTS (SettlementStatus).</p> <p>To notify the settlement, the creditor receives a camt.054.001.08 BankToCustomerDebitCreditNotification with local instrument (LIIA).</p>
Test evidence	<p>U2A: A Liquidity Transfer order with status “settled” can be visible from one of the following screen: Query Cash Transfers/ List Cash Transfers/ Details of cash transfers. Therefore, a screenshot of the liquidity transfer with status “settled” could be requested from “Query Cash Transfers” screen/ “List Cash Transfers” screen or “Details of cash transfers” screen</p> <p>A2A: A copy of the camt.025</p>

T2_TC_CLM_AH_ID3 - Available liquidity CLM query

Test Case ID	T2_TC_CLM_AH_ID3
Test case name	Available liquidity CLM query
Relevant for	CLM Account Holders
Domain	CLM
Sub Domain	QUER
Input mode	U2A or A2A
Mandatory	Yes
Detailed Description	<p>The purpose of this test case is to verify that the user can query the available liquidity of its CLM accounts</p> <p>U2A</p> <ol style="list-style-type: none"> 1. Select Liquidity → CLM Cash Account Liquidity – Query Screen → [Submit] → CLM Cash Account Liquidity – Display Screen 2. From the cash account liquidity query screen, the user can search the available liquidity on one, many or all accounts that a user is authorised to see through U2A interface. 3. The users can query within their data scope, which is determined by the Party BIC. <p>A2A</p> <ol style="list-style-type: none"> 1. The user sends a GetAccount camt.003 “Query request message - available liquidity CLM query” to CLM. 2. The user receives a ReturnAccount camt.004 in response. “Query response for business data - available liquidity CLM query” with the requested balance information according to the specified search criteria.
Preconditions/Details	A party with accounts in CLM and RTGS should exist.
Expected results	The user can see the overall liquidity of the selected account from the search criteria.
Test evidence	<p>U2A: Screenshot of the overall liquidity of an account (intra-service).</p> <p>A2A: Screenshot of the ReturnAccount camt.004</p>

T2_TC_CLM_AH_ID4 - Recourse to a deposit facility

Test Case ID	T2_TC_CLM_AH_ID4
Test case name	Recourse to a deposit facility
Relevant for	CLM Account Holder
Domain	CLM
Sub Domain	LTO
Input mode	U2A or A2A
Mandatory	Conditional: only required for payment banks with overnight deposit facility
Detailed Description	<p>This test case describes how to make an overnight deposit with the respective central bank of a CLM account holder.</p> <p>U2A:</p> <ol style="list-style-type: none"> 1. Select Liquidity → and click on the sub-menu entry ‘New Liquidity Transfer’ 2. Enter the account number of the debit account. This can be the account number of the MCA, the RTGS DCA, the TIPS Account or the RTGS sub-account of the CLM account holder requesting the overnight deposit. 3. Enter the account number of the credit account. This has to be the account number of the Overnight Deposit Account owned by the Central Bank and opened in the name of the respective CLM account holder requesting the overnight deposit.

	<ol style="list-style-type: none"> 4. Enter the amount that is to be transferred and provide an end-to-end identification for the liquidity transfer order 5. Click on the 'Submit' Button in order to submit the liquidity transfer order. <p>A2A</p> <ol style="list-style-type: none"> 1. The camt.050 message is sent by a payment bank to CLM to fund its own OD account.
Preconditions/Details	<p>Sufficient liquidity on the account to be debited.</p> <p>The account holder opted to receive a confirmation message camt.054.</p> <p>The CB has created a separate overnight deposit account per monetary policy counterparty using the overnight deposit functionality</p>
Expected results	<p>U2A: notification area shows whether the submission of the data has been completed</p> <p>A2A: Successful camt.054 is received</p>
Test evidence	<p>U2A: screenshot of the notification area after submitting the liquidity transfer order or the screenshot of the liquidity transfer order with status "settled" that can be requested from "Query Cash Transfers" screen, "List Cash Transfers" screen or "Details of cash transfers" screen</p> <p>A2A: copy of the successful camt.025</p>

T2_TC_CLM_AH_ID5 - Verify Credit Line increase

Test Case ID	T2_TC_AH_ID5
Test case name	Verify Credit Line increase
Relevant for	CLM Account Holders
Domain	CLM

Sub Domain	MCL
Input mode	U2A, A2A
Mandatory	Conditional Not applicable for out-countries Not applicable for participants of Central Banks using connected payments.
Detailed Description	<p>This test case describes the verification that a credit line increase (delta) is received by CLM for a CLM account holder's default MCA from a CB (CMS).</p> <p>U2A</p> <ol style="list-style-type: none"> 1. The CB user can verify the credit line increase by going to Liquidity → Credit Line per Account Holder – Query Screen <p>A2A</p> <ol style="list-style-type: none"> 2. After successful execution, CLM sends a BankToCustomerDebitCreditNotification (camt.054) message, if subscribed, confirming the modification of the credit line on the default MCA to the CLM MCA Account Holder.
Preconditions/Details	<p>Before the verification, the following steps are required:</p> <ol style="list-style-type: none"> 1. A credit line increase (delta) is received in CLM from the CB (CMS). 2. Business validation is completed successfully, so the credit line increase is executed and a credit line modification execution notification is sent to the relevant CB (CMS). 3. Sub-Processes "automated liquidity transfer order with intermediate status" followed by "CLM floor and ceiling" are triggered. 4. A positive credit line modification notification message is sent to the CLM account holder. <p>Additional preconditions include:</p> <ul style="list-style-type: none"> - Default MCA exists for the selected CLM Account Holder. - A message subscription exists on CL modification notification for the CLM Account Holder.
Expected results	The relevant credit line is increased
Test evidence	<p>U2A: Screenshot of the account holder credit line before and after the increase.</p> <p>A2A: Copy of the notification message</p>

T2_TC_RTGS_AH_ID2 - Receive Liquidity Credit Transfer camt.054

Test Case ID	T2_TC_RTGS_AH_ID2
Test case name	Receive Liquidity Credit Transfer camt.054
Relevant for	RTGS Account Holders
Domain	RTGS
Sub Domain	LTO
Input mode	U2A or A2A
Mandatory	<p>Conditional</p> <p>Required for participants using camt.054 messages</p>
Detailed Description	In this test case, the RTGS account holder verifies and confirm the receipt of the LiquidityCreditTransfer camt.054 messages.
Preconditions/Details	<p>Both sending and receiving accounts exist and are active</p> <p>Respective privileges have been granted to the sender.</p> <p>Sender has sent a liquidity transfer camt.050 message that has passed</p>

Mandatory Test Cases

	technical validation
Expected results	The DCA of the recipient is credited and senders accounts is debited. A camt.054 notification for the credit transfer is generated
Test evidence	U2A: A screenshot of the received camt.054 message from 'Messages – List Screen' or 'Messages – Details Screen'. A2A: copy of the camt.054
Relevant Documentation	RTGS UDFS 5.5.2 Liquidity Transfer 5.5.2.3 Liquidity transfer process RTGS UHB 5.1.2 Cash Transfers – List Screen

T2_TC_RTGS_AH_ID3 - Receive Resolution Of Investigation camt.029

Test Case ID	T2_TC_RTGS_AH_ID3
Test case name	Receive Resolution Of Investigation camt.029
Relevant for	RTGS Account Holders
Domain	RTGS
Sub Domain	CTO
Input mode	A2A
Mandatory	Conditional Required for A2A users.
Detailed Description	The camt.029 is used to negatively answer a recall message. Debtor does not get the funds back. The process is initiated by a participant A sending a payment order to recipient B followed by a recall payment message (camt.056). Participant B then sends a camt.029 in response denying the payment recall. RTGS then forwards the reply to the RTGS Account Holder (A) that requested the recall.

	The objective of this test case is for the participant A to verify and confirm the receipt of camt.029 message.
Preconditions/Details	Participant A has sent a payment order to Recipient B. Participant A has sent a PaymentCancellationRequest camt.056 message Participant B has responded to the recall message with a ResolutionOfInvestigation camt.029 message rejecting the request Participant A has subscribed to the relevant notification messages
Expected results	A "Payment Acceptance recall Confirmation Notification" / Receipt (camt.025) is created and sent to the actor that sends the recall response. ResolutionOfInvestigation camt.029 message passes technical validation and sends the "Counterparty payment recall rejection"/ ResolutionOfInvestigation (camt.029) to the recall request submitting actor.
Test evidence	Copy of the received camt.029 message
Relevant Documentation	RTGS UDFS 5.3.8 Payment order revocation and payment recall 5.3.7 Payment order modification 9.5 Reject or confirm payment order recall RTGS UHB 5.1.8 Messages – List Screen
